The resort received the status of a city in 2006. But the creation of the resort area began here after the opening of a sanatorium for the treatment of pulmonary diseases. In 1963 Sveti Vlas was recognized as a climatic seaside resort. Saint Vlas is located at the junction of the mountains and the sea, in the northern part of the bay, directly opposite the ancient town of Nessebar, included in the list of specially protected sites by UNESCO. In the central part of the bay there is a famous resort in Bulgaria – Sunny Beach, the northern edge of which smoothly turns into the first buildings of Saint Vlas. From the main square of St. Vlas to the center of Sunny Beach – 5 km, and to the town of Nessebar – 10 km.
